

# YOU AND I

Can't we meet in-between  
You know it's not far  
It's not always black and white

To be there at the end  
You just have to care  
It's time we both stop the fight

If we're rich or we're poor  
It's the roll of the dice  
It's all about 'Number One'

It's happened before  
Gonna happen some more  
We run and run

You and I must choose or we will lose  
Me and you have so much to do to become 'You and I'

Things are happening fast (They can't stay the same)  
Things are not going to last (Unless we can change)  
Please hold me close safe and tight

We both know what to do (It's easy to see)  
So I'm looking to you (It can't be just me)  
We both know what's wrong and right

Together we'll win (There's always a way)  
You know it's a sin (So watch what you say)  
To do nothing and turn away

Whatever the pain (If it's yours or it's mine)  
There's so much to gain (Just give me a sign)  
Let's start today

You and I must choose  
(the good things from the bad)  
Or we will lose  
(all that we once had)  
Me and you have so much to do  
(We both have to try,  
to see eye to eye,  
work out what to do)  
To become  
'You and I'
